ABOUT THE PROGRAM:

The program is designed to help build capacities of academia and young professionals for developing child and caregiver-friendly neighbourhoods within cities in India. Under the program, the participants are proposed to be skilled through certified training and capacity building modules. The course has been planned to sensitize participants about the needs of young citizens (0-5 years) in the city and to equip them with the adequate tools for the purpose.

The objective of the course is to address and upgrade the skills of various stakeholders including government officials and young professionals, to comprehend and address the ITC needs at neighbourhood level through comprehensive and well structured training.

ABOUT THE INSTITUTE & TRAINERS:

NIT Rourkela is one of the premier national-level institutions for technical education in the country and is funded by the Government of India.

Dr. Nabanita Saha is an Architect-Planner whose research focuses on the effects of globalization on Indian cities and the needs of contemporary Indian cities. She has worked on various urban planning projects in India under the aegis of the Department of Architecture and Regional Planning, IIT Kharagpur.

Dr. Basudatta Sarkar is an Architect-Planner with specialization in vulnerability assessment. She has been associated with ICSSR sponsored research project on developing guidelines for trans-generational cities and urban communities as a co-pl.
