National Institute of Technology
Rourkela-769008, Odisha, India
COURSE OBJECTIVE
The primary objectives of the course are as follows:
- Overview of cloud server related to cloud services, protocols and software’s.
- Learn Collaborative online tools for video management and storage.
- Learn various data exchange and open collaboration cloud platforms.
- Get exposed to various surveillance camera installation in smart cities and applicability of machine learning in surveillance system.
- Learn how to design infrastructure around the video analytics system, integration of tools/code with the video analytics software also application deployment.

ABOUT DEPARTMENT OF ECE
The main objective of the department is to impart high quality education and research. The major research areas of the department include Communication Networking, Signal Processing, Image & Video Processing, VLSI and Embedded Systems, Microwave and Antenna Engineering. The EC department is handling several research projects sponsored by external funding agencies. The department has resourcefully established Communication Network lab equipped with various types of state of art licensed software.

COURSE HIGHLIGHTS
- Introduction to Smart Cities and emphasizing data sharing, collaboration, open platform
- Data exchange and open collaboration platforms in global smart Cities
- Introducing machine learning in Video Analytics software.
- Surveillance in smart cities and applicability of machine learning in surveillance
- Hands-on Julia programming and using Julia programming for video analytics.
- Video Analytics Infrastructure details
- Infrastructure around the Video Analytics system. (Hardware + Software)
- Accessing and Managing the Edge Infrastructure.

INTENDED ATTENDEES
The course is designed primarily to train students, professionals, scholars, faculties to take up communication networking as a career option in academic and industry. Students and faculties of Electronics, Electrical, Computer Science and MSc (Electronics) would find this course extremely useful.

ABOUT NIT ROURKELA
National Institute of Technology (NIT), Rourkela was founded as Regional Engineering College, Rourkela in 1961. It is a prestigious institute with a reputation for excellence at both undergraduate and postgraduate levels, fostering the spirit of national integration among the students, a close interaction with industry and a strong emphasis on research, both basic and applied. The city of Rourkela is a bustling industrial city, cosmopolitan by nature and is well connected to all parts of the country by road and rail. It is en-route Howrah-Mumbai main line of South-Eastern Railway. Nesting amidst greenery on all sides, NIT campus is approximately 7 km from Rourkela railway station. The nearest airports are Ranchi, Kolkata and Bhubaneswar, which are well connected by trains.
